Well you know how, using the telephone to get appointments can be painful and sometimes even stressful, However, some people have figured out a way to get great results and appointments every time they ring.

There are 2 types of people, those who get great results and instant appointments, and those who have the painful experience of getting on going rejection.

I have good news and bad news, here is the bad news first, we are not taught the right words to influence people at school.

But the good news, I can teach you the exact words to use every single time.

Before I get started , let me tell you what happened to me ,20 years ago , my business was suffering, I had good products and services, just no one to show them to. I couldn't persuade people to see me.

When I met people face to face I closed most of the deals, however I was on the edge of an uncomfortable baron period of not enough sales, so I spent my savings going on a sales course in Canada, in the winter, freezing cold, and on my own, in a room full of excited Americans, part of the course was how to get more appointments by phone the course was £ 5,000, 3 months after doing the course I made appointments I earnt £ 60,000, so it was a great investment.

I have made available everything I know on getting

appointments by phone In this incredible programme, with live workshop, live role plays there is also a work book which has more than 50 pages of packed information, tips and the exact words to use, with scripts, so you master how to book all the appointments you want .

With appointments you will get a chance to tell your story, the more stories you tell the more business you will get.

I have invested over 20 years of my experience with the help of Allan Pease the great Australian Author and Sales Trainer , Peter Thomson from the UK and Joe Picci from the USA, in this Programme on how to make appointments by phone.
